

BEING SPACE

## **Pellowah Level 1 & 2 Attunement two-day Workshop**

"Individually, we are one drop. Together, we are an ocean"  
*Ryunosuke Satoro*

When we gather with a common purpose to explore together and support one another, unexpected and magical things can happen. In offering these Workshops my intention is to create and provide a space for us to be, and for transformation. How you are, what you bring and how you show up in the space is always unique, relevant and an important part of the mix.

It'll be my privilege to share the magic of Pellowah with you as and when the time is right.

*Catherine*
